

Md. Tushar Hossain

MERN Stack Developer

Dhaka, Bangladesh | tusharsu97@gmail.com
+880 1943 715753 | [GitHub](#) | [Linkedin](#) | [Portfolio](#)

Career Objective

Motivated and detail-oriented MERN Stack Developer with a passion for creating dynamic, responsive, and user-friendly web applications. Skilled in building mern-stack solutions using modern JavaScript frameworks and tools. Committed to continuous learning with a long-term goal of becoming a lead software architect.

Technical Skills

- **Frontend:** HTML, CSS, Tailwind CSS, React
- **Backend:** Node.js, Express.js
- **Database:** MongoDB
- **Tools:** GitHub, Postman, Netlify, Vite, VS Code

Projects

1. Forum Web Application – Community Platform

[Live Link](#) | [Client Repository](#) | [Server Repository](#)

Overview: A modern MERN-stack-based discussion platform that allows users to create and engage in topic-based conversations through posts, comments, and voting.

Key Features:

- Role-based access control (Admin, User)
- Upvote/downvote system with popularity or date sorting
- Admin dashboard with user, post, and comment control
- Visual analytics using pie charts (posts, comments, users)
- Secure user authentication (JWT/Token-based)

2. Gardening Community Website – Mern Stack

[Live Link](#) | [Client Repository](#) | [Server Repository](#)

Overview: A community platform for gardeners to share tips, manage profiles, and connect with others.

Key Features:

- User authentication
- Garden experience
- Interactive community sharing and tips

3. BD Programming – Educational Platform

[Live Link](#) | [Client Repository](#) | [Server Repository](#)

Overview: A Bangla-language course platform offering hands-on programming tutorials for beginners.

Key Features:

- Course management system
- Student Enrolled Courses
